# ADVANCED INFRARED MULTI-GAS ANALYZER

## **MGA 3000**

#### **FEATURES**

- Single or multiple gas analyzers –
   Up to four gases at once
- Option to upgrade at later date protects initial investment
- Several different, field proven technologies utilized
- Fully supported from a single reliable source
- For use in hostile or friendly environments
- Robust, attractive, compact 3U rack mount enclosure
- Optional bench case available for non-rack mount
- · Best price performance on the market
- Designed with user requirements in mind

Up to four gases can be analyzed at any time. For those organizations requiring single gas analysis, but would like the option to upgrade at a later date, the MGA 3000 is an ideal solution to protect your initial investment.

Designed for use in hostile or friendly environments the MGA 3000 maintains high levels of gas selectivity wherever installed. All packed into a robust, attractive, compact 3U-rack mount enclosure to utilize minimal space. An optional bench case is available for non-rack mount installations.

#### Prices below should be considered as 'typical' and only be used for budgeting purposes.

System requirements vary depending on application, gases, parameters, and conditions.

First you would choose one of several MGA3000 platforms types available.

	MGA100 MGA150 MGA102	Complete 19" chassis including electronics, piping and power supply Same as MGA100 but in a complete wall mount IP54 enclosure Same as MGA100 but in bench case (3U)	\$	6,	,495 ,895 ,895	00.
Second you would choose one to four of several gas channels available
